AMENDMENT

In the Claims

RECEIVED

MAR 04 2003

TECHNOLOGY CENTER R3700

Please amend claims 1, 7, and 93 as follows:

Sub EY 1. (Twice Amended) A portable golf round data system comprising:

(a) a radiolocation receiver to receive at least one external locating signal from which a user's current location on a golf course can be determined;

D1 (b) data storage in a data collection unit for storing course data relating to locations of one or more golf course features;

(c) at least one microprocessor in said data collection unit operatively connected to said radiolocation receiver and to said data storage, said microprocessor programmed to:

- 1) determine said user's current location on said golf course from said external locating signal; and
